READY TO TEST DRIVE

We've been talking about website improvement for months. And we're glad to say it's finally here. Websites are living and breathing creatures, so you're never really quite finished, but it's time to move on for now. The improvements include:

- **Improved Navigation** – Static links for all categories
 - Cash – Grant Money Sources
 - Happenings – Industry Events Calendar
 - Connections – Association links
- **New Categories**
 - Price Matrix – Products displayed via budgetary price ranges
 - Collection – View product families
 - LEED – Search here for LEED related products
 - Stainless Steel – Search here for stainless steel products

AN EXAMPLE OF HOW YOU WOULD SEE A COLLECTION ON OUR NEW WEB SITE.

Let us know what you think. Please share with us any other improvements that might make the site easier for you to use.

WHAT'S NEW

Project Graphics – Light pole banners to inform, promote and beautify.

LEED PRODUCT OF THE MONTH

Tournesol Siteworks offers planter irrigation systems to fit any size planter, planters and environmentally sound roof garden products. Enhance your public space with a fully intergrated landscape solution from Tournesol Siteworks.

Planter Irrigation System Keep potted plants beautiful, using less water and less manpower. Eliminates water drainage on sidewalks and patios. Retrofit existing planters of any shape or size or start fresh with self contained planters. Send us an email with the subject "planter irrigation" and we'll send you some information.

Tournesol VGM is a commercial quality greenwall system consisting of recycled planting modules and powder coated hanging rails. VGM provides instant coverage for any vertical surface and allows plants suited for any horticultural condition. VGM creates instant greenery and keep the greenery green with an optional drip irrigation system. g W
