

RECYCLE DESIGN

Streetscapes, Inc. is pleased to introduce **RECYCLE DESIGN**, an innovative manufacturer of pedestrian amenities utilizing recycled High-Density Polyethylene (HDPE) and reclaimed or sustainable woods. Products include benches, litter and recycling receptacles, picnic and plaza tables and planters. Each product series has matching components to produce a coordinated and unified appearance.

Recycle Design can accommodate your project-specific needs: All HDPE items are available in custom colors, four standard colors and four powder coated finishes. Typical lead times are four to six weeks.

BICYCLE RACKS AND BICYCLE STORAGE

If you've delayed your decision to add **bicycle racks** and other **bicycle storage** to your public spaces, there's still plenty of time to make that happen this year.

Confused about which type of bicycle rack or bicycle parking method might work best for you? Look at our new **bicycle rack guide**. It identifies various types of bicycle racks, including those that are designed for garages, basements and bicycle stations.

To view our complete line of bicycle storage products, visit our [livability and sustainability](#) link.

SIDEWALK CAFE

Sidewalk cafés — streetside cafés, curbside cafés — are more popular than ever . . . whatever you may call them. They encourage pedestrian traffic and people watching. They add character to a business district, create vibrant public spaces, improve safety and calm traffic.

Plan your next café or patio space with **living green walls**, **planters** and **planter watering systems**; **tables and chairs**; **umbrellas** and **railings** for maximum lounging and people watching. Visit our [streetscape sidewalk café](#) and [livability and sustainability](#) links for inspiration and all the products you will need.
