

## *Apartment Bike Storage Ideas!*

Bike File

The Bike File storage system is a space efficient u-lock compatible product. Store nine bikes in an eight foot section. Ceiling, wall and floor mount options are available.

Bike Hook

The Bike Hook is a simple way to store and lock bikes. The Hook mounts to a wall and includes a four foot security cable to secure bikes.

Horizontal

The Horizontal wall rack hangs two bikes parallel to the wall. Designed to provide high security bike storage to individual tenant parking stalls.

Space Saver

The Space Saver storage system provides U-lock secure bike parking for any type of bike. Wall mount and single or dual entry models are available.

Space Saver Single

The Space Saver Single is ideal for property managers and home storage use. The Space Saver Single converts unable space into bike parking spaces.

Switchback

The Switchback is designed for horizontal bike parking along a wall where space is limited. Ride up, lock your bike and use the cable to secure both bike wheels.

Track Rack

The Track Rack has a unique staggered, sliding hook design which creates parking efficiency while providing easy access to any particular bike. Track racks are not lockable.

Fixit

The Fixit stand includes all of the tools necessary to perform basic bike maintenance and repairs. It includes a hanger arm, tools and an air pump.
