

GFRC Lightweight Concrete

Versatile GFRC lightweight concrete textures range from the rustic to the refined. Our finishes feature natural quartz and mica sands, and the durable finishes can be refinished and repaired on site as required. The Travertine, Sandblast, Acid Etch and Granite finishes are variations on natural concrete finishes, while Natural Sand and Fine Grain rely on applied paints and texture, similar to FRP finishes. We send out a color/texture sample as a submittal with every order confirmation to make sure that you are getting what you expect. All finishes are shown in Shark, but are available in any GFRC color.

Tier 1

Natural Sand

Sandblast

Travertine

Tier 2

Acid Etch

Fine Grain

Granite

Tier 1 colors are applied acrylic enamel paints. Print colors may vary slightly, so we've provided a Pantone (PMS) color match so you know what you are getting. We can also match nearly any color – ask your salesperson for details.
